

# CHAIN CLAMPS

- One clamp allows a wide range of fit  
Pipe can be welded with clamp in place
- Safely permits elbows, tees and other fittings to be held
- Reforms Schedule 40 pipe and aligns pipe up to Schedule 80
- Available in steel and stainless steel
- Clamps color coded for quick identification (Red=Steel; Green=Stainless)
- Zinc plated and powder coated
- May be used as a Single Jackscrew Clamp by backing one jackscrew off the clamp
- Alignment within 1/64" for reforming of both the internal and external diameters of the pipe
